

MANUAL OF ADMINISTRATION

TOPIC: HEALTH AND SAFETY	SUBJECT: Electrical Devices in 24 Hour Residential Locations	Code: HS186
		Date of Issue: Apr 2009
		Revised: December 2013
		Page 1 of 1

PURPOSE: This policy will outline required markings for all electrical devices in 24 hour residential locations. It is recommended everyone supported residentially follow this policy.

RECOGNIZED CERTIFICATION MARKS:

Unapproved electrical products present a high-risk of potential electrical shock and fire hazards.

Products approved for use in Ontario will bear one of the markings found in the General Information Binders (yellow) found in all NEIGHBOURS homes.

Please refer to the General Information Binder when trying to determine if an electrical product is approved for use in Ontario.

For further information please visit: www.esasafe.com and type Recognized Certification Marks in the search box.
